CHARACTERISTICS

Take air into the aerator, to ensure a good water feeling and helps to save water

Water saving through aerators|Water flow is regulated to 5 L/min for wash basin mixers|Saved around 60% yearly water consumption

Comfortable height for mixers in combination with surface mounted wash basins|Enables comfortable washing position with more space between spout and wash basin

The taps and shower heads are easily cleaned by the rubble on the aerator and nozzle

Constant water flow rate for wash basin mixers regardless of pressure fluctuations in the piping system|Constant water temperature and flow in thermostatic mixers due to quick response of the thermostatic cartridge

FLOW CHART
